¹ Must aggregate employee contributions to all 401(k), 403(b), SAR-SEP, and SIMPLE plans of all employers. Contributions to 457(b) plans are not aggregated. For SAR-SEPs, the percentage limit is 25% of compensation reduced by elective deferrals (effectively, a 20% maximum contribution).

² Special catch-up limits may also apply to 403(b) and 457(b) plan participants.

³ Note: For self-employed individuals, compensation generally means earned income. This means that, for qualified plans, deductible contributions for a self-employed individual are limited to 20% of net earnings from self-employment (net profits minus self-employment tax deduction), and special rules apply in calculating the annual additions limit.
